

I am in full support of the new FCC rule requiring written permission before a company with which I have an established business relationship can send me junk faxes. As it is I receive on an avg 2 faxes a day from organizations that I have never even heard, I want to have some control over who can send me what and I don't need anymore advertisements from a business that I have already patronized without telling them its ok! Understand that the new conditions for receiving fax advertisements are greatly needed and appreciated. I will help in the ongoing fight to stop the the blizzard of junk faxes I/we continue to have to endure. This ruling should not be delayed or changed.
